

Sugan[®]

Since : 1996

Speedo & Control Cables

Sugan Cables is a long established company and has served the automotive industry for over 26 years. The company Sugan Cables (India) was registered in 1996 for manufacturing of two wheeler, three wheeler and commercial vehicles control cables and speedometer cables from premises in Delhi, India .We are direct suppliers of control cable to more than three continents.

Over the years the company has placed great emphasis on retaining its staff. With their many years of experience and acquired instrumentation skills, Sugan Cables can now rightly claim to be a leader in its specialised field. We are proud to be making quality products in India. When quality and reliability matter, we stand by our claim that we made the best option.

Since 1996, we have been experts in the designing and manufacturing of cable products. Our extensive experience ensures that we can meet your every need.

All of our cable products are made in our state-of-the-art, ISO 9001:2015 certified manufacturing facility located in India. Our reputation for superior service and quick turnaround is a product of our years of experience and our dedication to nothing less than complete customer satisfaction.

Vision

To be the leading manufacturer of premium Control Cables for Automotive & Non-Automotive Industry in after market brand.
